Final Recommendations KPIF Working Group • 2/11/16

The following recommendations reflect the Working Group's general consensus for resolving usage and maintenance issues discussed during the first three meetings. However, because pending litigation filed over parking fees involving private roads included City and State agencies as parties, a majority of agency representatives were precluded from adopting positions on the following recommendations.

As such, the Working Group Co-Chairs offer the following recommendations as a reflection of a general group consensus. Specific implementation actions will be considered through legislative measures introduced in the State House of Representatives and State Senate during the 2016 legislative session to address items 1, 2, and 3. Legislative measures may be introduced in the Honolulu City Council to address items 4 and 5, as appropriate.

References to the "State" in recommendations 1 and 3 refer to Hawaii Community Development Authority, and to the "City" in recommendations 1, 3, 4, and 5 refer to Departments of Transportation Services and Planning and Permitting.

- The State could condemn the road (i.e. the entire right-of-way, including the road, shoulders, etc.), make road and infrastructure improvements (gradually, ifnecessary), and subsequently dedicate the improved road to the City. The City could then accept the entire right-of-way (including the road, shoulders, improvements, etc.) and maintain the road going forward.
 - a. The State Legislature could appropriate funds to the appropriate State department(s) for condemnation and infrastructure improvements in preparation for dedication to the City.
 - b. HCDA's Improvement District ("ID") Program could be utilized to fund infrastructure improvements.
 - c. Relaxed requirements (compared to current City standards) could be adopted by State/City agencies, thereby minimizing the assessment amounts on small landowners.
 - d. The City would then accept the dedication of the road upon completion of the agreed-upon infrastructure improvements.
 - e. The City Council could appropriate funds to the appropriate City department(s) for maintenance.
- HCDA does not currently require developers to provide supplemental documentation as to ownership of the surrounding roads at the time of a development project application.
 - a. The State Legislature could adopt legislation to require, at the time of a development project application, that developers provide supplemental documentation to HCDA regarding ownership of all surrounding roads.
- 3. The City/State could build public parking structures/lots in the Kakaako area to address the limited public parking issue.
 - The City Council/State Legislature could appropriate funds.
- 4. The City could enforce traffic regulations on private roads in Kakaako, as HRS section 46-16 and ROH section 15-1.1 allow the City to enforce traffic regulations on private streets that have been used by the public for more than six months.

Committee on EMLA, September 20, 2016

Submitted by Councilmember Fukunaga Resolution 16-213

EMLA

HB2049 HD2 SD2 CD1

Measure Title: RELATING TO TRANSPORTATION.

Report Title: Private Roads; Repair and Maintenance; Appropriation (\$)

Establishes the roads commission to make recommendations on the ownership of private roads. Adds roads, alleys, streets, ways, lanes, bikeways, and bridges to the list of public highways or public trails that can be dedicated or condemned. Exempts the State and countles from maintaining or improving condemned roads. Appropriates funds for the

repair and maintenance of specific roads. Appropriates funds for the roads commission.
